

THE AMERICAN.

SUNBURY.

SATURDAY, SEPTEMBER 24, 1853.

H. B. MASSER, Editor and Proprietor.

TO ADVERTISERS.—The circulation of the Sunbury American among the different towns on the Susquehanna is not exceeded if equaled by any paper published in North or Pennsylvania.

DEMOCRATIC STATE NOMINATIONS.

FOR JUDGE OF THE SUPREME COURT: JOHN C. KNOX, Of Tioga County.

FOR CANAL COMMISSIONER: THOMAS FORSYTH, Of Philadelphia County.

FOR AUDITOR GENERAL: EPHRAIM BANKS, Of Milford County.

FOR SURVEYOR GENERAL: J. PORTER BRAWLEY, Of Crawford County.

DEMOCRATIC COUNTY NOMINATIONS.

For Assembly.

DAVID B. MONTGOMERY, of Delaware, Commissioner.

SIMON SNYDER, of Upper Augusta, Treasurer.

FRANCIS BUCHER, of Sunbury, District Attorney.

WILLIAM M. ROCKEFELLER, of Sunbury, Deputy Surveyor.

SAMUEL YOUNG, of Lower Mahanoy, Auditor.

JOSEPH HOOVER, of Upper Augusta.

EDITOR'S TABLE.

Business Notices.

GOREY'S LAMB'S BOOK for October has already reached our table. The engravings represent, "The mourners," "Sabbath in the Country," "Fashion Plates, various patterns for Lace, Mantles and Mantillas, landscape, gardening, &c., &c., Of the contents we may note with special favor, Artesian Wells, Woman's social position, A dollar on the conscience, The wonderful gift, &c.

LEWISBURG.—Our enterprising young friends, Messrs. Beaver, Kremer & Moore, of Lewisburg advertise in our columns, this week, a splendid assortment of new goods. Lewisburg merchants are wide awake.

LAMPS, LANTERNS & CHANDELIERS.—Davis & Culin, manufacturers of these articles, advertise a large assortment for sale at their manufactory, N. E. corner of 4th and Cherry streets, Philadelphia.

PAPER HANGINGS.—W. Wilson, No. 9 south fourth street, below market, Philadelphia, advertises a variety of articles in his line. See his advertisement.

MILLINERY.—Julius Stern, No. 171, north 2d street, Philadelphia, advertises an assortment of Millinery articles, such as silks, ribbons, laces &c.

EPISCOPAL SERVICE.—Service will be held, by Divine Permission in St. Matthew's Church, on tomorrow (Sunday) morning at 10 o'clock, and in St. Marks Church, Northumberland, at 4 P. M.

LAND WARRANTS.—Persons having Land Warrants for sale, can dispose of them for cash, by applying at this office.

The Borough Councils at a meeting on Monday evening last, made a subscription of one thousand dollars to the construction of the embankment above town, at the Grant farm. The work will cost \$4000 when completed, and will, with the other embankments, render every portion of the town secure from all future freshets.

The steamboat now building at this place is nearly ready for her machinery.—The boiler has arrived, but the engine is not yet finished, and will not be ready for several weeks. After her machinery is put on board, it will require some four weeks to rig the boat, and put her into complete running order. It will therefore be about the middle of November before we can expect to see the placid bosom of the Susquehanna disturbed by the prow of steamer.

LARGE PEACH.—The editor of the Lycoming Gazette received a peach measuring 10 1/2 inches in circumference and weighing nine ounces and a half, and asks who can beat it. Sunbury, we think, can beat it without much trouble.

UNION COUNTY.—Politics in Union county is strangely mixed up with local matters, and is now in such a medley, that it is hard to tell which party will be uppermost. The first issue was in relation to the county subscription. There was a regular fight between the subscription and anti-subscription parties. That brought about, as these things generally do, other issues. Interested individuals started the project of dividing the county, and now they have dropped nearly every other issue, and are battling for and against a division of the county, and there is now a fair prospect of Union county being divided. Both Whigs and Democrats opposed to dividing the county, have resolved to oppose every man who is in favor of division, or who is even suspected of such a design.

H. C. HICKOCK, Esq., of Lewisburg, has been appointed Notary Public for Union county. We congratulate our editorial friend, and hope he may continue in the line of promotion.

AFFLICTING BEREAVEMENT.
We observe in one of our exchanges a statement that "Mr. Eisey, editor of the Concordia, La. Intelligencer, had lost his wife and four children" by that terrible scourge of the south—yellow fever. Mr. Eisey was connected with us in the publication of this paper from its commencement until 1848, a period of seven and a half years. He removed south with his family the year following. This will be sad intelligence for the friends of his family in this neighborhood.

INTERESTING TO COAL DEALERS.
The exhibition committee of the Maryland Institute have given notice that they will, at the approaching Fair, appoint a competent committee to examine and accurately test the various coals on exhibition, and determine their relative value. All persons interested in coal mines are therefore requested to furnish specimens for the purpose, in addition to those for exhibition.

OPENING OF THE NORTH BRANCH CANAL.
The Canal Commissioners have directed the water to be let into the whole line of the North Branch canal on the 15th day of October next. This is the last link necessary to connect the waters of Chesapeake Bay with the waters of the Northern lakes. This canal traverses one of the richest mineral regions of Pennsylvania.

The Milltonian is in error in regard to the locomotive and cars being smashed on the Philadelphia and Sunbury Railroad. The locomotive did not leave the track, and sustained no injury whatever, and the body of the passenger car, with the exception of some damage to the roof, is as firm and substantial as ever. The car was brought to town, on trucks, for repair.—Such an accident cannot well occur again, as the Company have placed a powerful reflector on the Engine, that will enable the engineer to see any obstruction within stopping distance. The locomotive threw off the track two of the cows over the abutment, and would have cleared the track of the third, had the space between track and the side of the bridge been wider. The management of the road is in good hands. The Superintendent, Mr. Fiske, of Providence, R. I., who was kept at home by illness, has returned. He is a gentleman of experience and business capacity, and under his management the operations of the road will be most carefully and efficiently conducted.

The first meeting of the New York, Atlantic and Pacific Railroad Company, was held on Wednesday, the 14th instant, at New York. The Commissioners present proceeded to business and opened the books of subscription. The capital of the Company is one hundred millions. The amount subscribed was \$12,800,000, of which ten millions were taken by Robert J. Walker. The Company then adjourned for a fortnight.

TYPE SETTING MACHINE.—The New York Tribune has examined a new machine, invented by Mr. WILLIAM MITCHELL, of that city, for the purpose of setting type. It has keys like a piano, with a number of endless tapes, kept in motion by machinery, to carry the types to the spot where they are set up. Exactly how much work it is capable of performing, the Tribune has no means of judging, as the arrangements are not yet complete enough to subject it to a regular test.

EUROPE.—The news by the Arctic from all parts of Europe seems to favor the impression that the Eastern war question may yet reach open war. Trade in the manufacturing districts had declined, and had also the prices of Flour and Grain.

YELLOW FEVER AT PHILADELPHIA.
The Board of Health this week report two fatal cases of Yellow Fever in our city.—That it still exists in the neighborhood of South and Swanston streets, to which locality it was brought by the bark Mandarin, there can be no doubt, but it is of mild type, and in most instances yields to medical treatment. From personal observation we know that many houses in the vicinity are deserted; that factories have been closed; that the disease has manifested itself almost exclusively in badly ventilated localities, and that the public authorities have performed everything in their power to cleanse and purify the infected district. There is no occasion for any alarm, but a proper sense of our duty compels us to say that yellow fever does exist, and cases will continue to occur until a few heavy frosts have visited us.—Sun, Monday.

BALTIMORE, Sept. 18th.
The Southern Mail.—The Mail of this evening, brings no papers beyond Mobile. The fever continues its ravages among the population of Mobile. Nearly all the stores are closed, and business is completely prostrated. The proprietors of the Battle House has lost so many clerks and servants, that they were compelled to close the Hotel during the epidemic. The damages caused by freshets to the Southern railroads, have been repaired, and the trains have commenced their regular trips.

A PENNSYLVANIA WILD CAT.—A tremendous Wild Cat, 24 inches long and weighing 75 pounds, was shot and killed by Col Joseph Haughwout, a few miles above Tamaqua, a weeks since.

Dr. Poos, of Winbalden, confirms the statement of several other German practitioners, that warts are rapidly cured by the internal use of carbonate of magnesia.

THRILLING SCENE AT THE FALLS OF NIAGARA.
REMARKABLE ESCAPE FROM DEATH.—Mr. E. V. Wilson, of this city, lighting rod notoriety, went to the Falls with a party, and among the number was Mrs. N. L. Piper.—The lady, at the time, was laboring mightily under a species of insanity. It was thought by her husband that travelling and a change of air and scenery would do her good, but unfortunately, such was not the case. Immediately upon her arrival, she was desirous to see the Falls, and while standing upon the Canada side, at about twenty feet from the falling sheet of water, she slipped her arm from Mr. Wilson, and made a rush towards the precipice. He rushed after her, and just as she was going over, he caught hold of her dress, and by it held her dangling in the air. The dress gave way, and she fell on the ledge of a rock at a distance of twenty feet. As she thus lay, Wilson, our narrator says, "with great presence of mind, looked for a soft place," and, discovering that a quantity of loose earth was lying on the rocks, he immediately jumped down on it. He was just in time to save her from going over the main precipice. By the aid of a pair of long lines belonging to a team close by, they were both drawn up together. Both suffered from some contusions, but neither was seriously hurt.—Toronto Colonist.

RUSSIA AND CHINA.—The sudden appearance of a Russian squadron in the China seas, has given rise to much speculation. It was conjectured by some that the vessels were sent as a sort of fleet of observation, commissioned to watch and report upon the connection of foreign powers with the revolutionists; others, that the Emperor of the North was about to assist his Eastern brother in quieting his now troublesome subjects; but the weight of popular opinion inclined to the belief that the ships would set off for Japan, and perhaps anticip to the Americans at Jeddo.

NEW ORLEANS, Sept. 16.
Ravages of the Yellow Fever.—The number of interments reported yesterday was 51, of which 37 were by fever. We have frightful accounts of the ravages of the pestilence along the Lake and River coasts. It is raging terribly among the plantations and in the small villages. The Howard Association of this city are sending assistance in all directions.

NEW ORLEANS, Sept. 17.—The interments for the twenty-four hours ending this morning, have been 47, including only 26 from fever. The total mortality for the week ending to day has decreased to 365, including 240 from fever.

REPLY OF MR. EVERETT TO LORD JOHN RUSSELL.
Boston, Sept. 21.—The Advertiser to-day contains Mr. Everett's letter, in reply to Lord John Russell, on the Fishery question, dated September 17th, in which he regrets that Lord John's letter was not written before his (Mr. E's) retirement from the State Department, in order that he might have presented officially instead of personally as at present. He considers the letter marvellous in tone and not so conciliatory as might have been expected, and proceeds to answer in detail in a very masterly manner. The letter makes two and a half columns.

By order of the French Minister of Marine, a second assortment of argane seeds has just been brought to France from Mogador. The argane, which is met with in the interior of Morocco, particularly in the neighborhood of Mazagor, is a tree, the fruit of which, after having furnished an abundant oil, affords an excellent food for cattle, and serves besides as a strong manure. The trunk of the argane does not exceed fifteen feet in height, and is about nine feet in circumference. The acclimation of this tree has been already successfully commenced in the sandy and stony ground of the south of France.

MAD DOGS.—Considerable excitement is now prevailing among our citizens upon account of several dogs reputed to have been mad, having passed through our town and neighborhood, within a few days. A dog belonging to Mr. Wm. McMichael near this Borough, was bitten some time since, by a strange dog, passing by, and last week became mad, biting several dogs belonging to Mr. M., and also passing through the northern part of our Borough in the direction of Pennsville, bit quite a number of dogs. He was killed at Pennsville.—Mancy Linnary.

AN ENGLISH PEACH ORCHARD.—A gentleman named Davis, from Philadelphia, residing in Clermont County, Ohio, has a peach orchard of 100 acres, containing 17,000 trees. His net profits this season are estimated at \$25,000.

DAMAGES FOR BREACH OF PROMISE.—Miss Kline has recovered \$500 of Mr. Snydam, a widower of New Jersey, for a breach of marriage promise. She proved her case by a female friend, who overheard the contract, through a hole in the floor.

ROYAL NEEDLEWOMEN.—The Empress of Russia and the ex-Queen of France are said to be excellent needlewomen; but it is not stated whether they were in the habit of mending their husband's coats, pants, and vests. Speaking of coats, pants, and vests, there is a splendid and varied assortment of all those articles, just suited and intended for the approaching fall season, at Rockhill & Wilson's Clothing Store, No. 111 Chestnut street, corner of Franklin Place, Philadelphia. Philadelphia, Nov. 6, 1852.—1y.—ew.

New Advertisements.
\$500 REWARD!!
INASMUCH as there has been at sundry times, obstructions placed and confined upon the track of the Philadelphia and Sunbury Railroad, I do hereby offer the above reward for the detection and conviction of any person or persons guilty of such offence.
